TRU-PACK®

Custom Procedure Trays for Ophthalmic Surgery

TRUSETAL Verbandstoffwerk GmbH manufactures custom tailored Procedure Packs from more than 1,000 qualified contents. TRU-PACK® kits can be adapted and assembled to suit your requirements.

Advantages of TRU-PACK® for the user

Customised surgical sets ensure greater safety and pro-fitability in the clinic and on practice days. Don't underestimate the associated cost advantages TRU-PACK® can achieve. It is designed to meet the individual specification of each hospital according to their procedure requirements with content layout.

Reliable! Quality!

When manufacturing and packaging the TRU-PACK®, we take care to meet the highest quality standards. This also applies to all of our suppliers and supply chain.

TRU-PACK® ... *the clever pack*

The packs contain, as much as possible, all single-use products. Every procedure pack is tailor-made to meet the needs of the operating theatre staff. This allows the staff to focus on their most important priority, the patient.
